STANDARD ICON DIRECTORY

It certifies that the electrical and electronic equipment do not contain levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenylethers (PBDEs) above the legally permitted limit

ISO9001: certification of the management system

All the machine components in contact with water and steam undergo the Ruveco Teck coating process which drastically reduces the risk of release of metals in the delivered beverages

The CSQ-CERT certification body offers complex services in the field of Environmental Management System according to the ISO14001

The CSQ-CERT certification body offers complex services in the field of Quality Management System according to the IS09001

Listed by the National Sanitary. Foundation. NSF, an independent testing organization, lists products which meet their criteria for sanitation and cleanability Certification of products and materials intended for contact with food and drinking water on the U.S. market

The Canadian Standards Association(CSA) is a nonprofit association serving business, industry, government and consumers in Canada and the global marketplace.

Conformance European With the CE mark, which is obligatory in the European Union member countries, the manufacturer states that the individual product is compliance with the general safety regulations in the CE-marking directives.

Underwriters Laboratories The UL Listing Mark attests that products have been tested and evaluated according to the US safety standards

The cUL Listing Mark attests that products have been tested and evaluated according to the Canedian safety standards

The C UL US Listing Mark attests that products have Canadian safety standards

The UL EPH mark appear on products that have been evaluated to Environmental and Public Health Standards. The "Classified" version is used for products complying with ANSI/NSF Standards and other food equipment hygiene codes and requirements. Examples include Food Service and Meat and Poultry Plant Equipment and Drinking Water Additives. The "Listed" version is typically used for products complying with UL's own published EPH Standards for Safety.

ETL Testing Laboratories

The Eco-design Directive for Energy-using Products (2005/32/EC) was adopted in 2005 and came Into force in August 2007. It establishes a framework under which manufacturers of energy-using products (EuP) will, at the design stage,be obliged to reduce the energy consumption and other negative environmental impacts that occur during the product's life cycle. This is an article 95 directive which means adoption will be aligned in all member states.

Registration, Evaluation, Authorization and Restriction of Chemicals

Restriction of Hazardous Substances, RoHS is the standard used to make sure certain substances are not used in electronic products. The legislation limits use of lead, polybrominated diphenyl ethers, mercury, hexavalent chromium, cadmium and polybrominated biphenyls.

The International "emc-Mark" appears on products meeting the electromagnetic compatibility requirements of Europe, the United States, Japan, Australia, or any combination of the four.In the United States, some types of products can't be sold without proof of compliance to U.S. electromagnetic compatibility requirements. The types of products that are subject to EMC testing include medical and dental equipment, computers, microwave ovens, televisions, radios, transmitters, and radio-controlled equipment

Products have been designed and manufactured to comply with any ad all specifications set out by the Australian Communications Authority(ACA) in regards to Electromagnetic Compatibility. As testament to such compliance these units bear the C-Tick symbol

Norway - NEMKO
(Norwegian Board for Testing and Approval of Electrical Equipment) The recognized association for Norwegian standards is the Norwegian Electrotechnical Committe (NEK). NEK starndards are identical to IEC and CENELEC.
The NEMKO mark molded into a plug or connector indicates that a product has been tested and approved by NEMKO.

ISO 9001:2008 certification has been in place for over a decade now and is used by both customers and companies as a method of controlling their quality. The Standard provides a framework to manage your business and ensure a philosophy of continual improvement in all aspects of your business.

The China Compulsory Certificate (CCC), which is obligatory, attests that products are complying with Chinese standards

Every operation serving or selling food needs to have a food safety system in place that is designed specifically to guarantee the food being served is safe to eat.This specific food safety system is called HACCP for hazard analysis and critical control point.

Material
High firing temperature porcelain

Application
Safe in micro-wave

Firing Temperature
1320℃

Cleaning
Safe in dishwasher

Color
White

Quality
Durable use

- Material: Bone china, raw material with bone powder
- Firing Temperature:1320℃
- Color: Super white
- Durability: Hardness:8200Mpa, Thin but super hard, Low attrition rate, not easy to contain scratch mark
- Security: Free of lead
- Testing: FDA test passed
- Using Temperature:Good performance in resistant of both high and low temperature enviroment
- Application: Safe in oven, micro-oven, freezer, dishwasher, etc

Material
High firing temperature porcelain

Application
Safe in micro-wave

Firing Temperature
1320 C

Cleaning
Safe in dishwasher

Color
White

Quality
Durable use

- Material: Bone china, raw material with bone powder
- Firing Temperature:1320 C
- Color: Super white
- Durability: Hardness:8200Mpa, Thin but super hard, Low attrition rate, not easy to contain scratch mark
- Security: Free of lead
- Testing: FDA test passed
- Using Temperature:Good performance in resistant of both high and low temperature enviroment
- Application: Safe in oven, micro-oven, freezer, dishwasher, etc

Firm and Durable

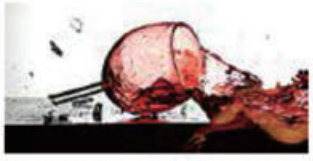
The strength of resisting to mechanical shock and temperature difference is 3 to 5 times of ordinary glass.

Strengthening Cup -- Cup-mouth super anti-collision

Strengthening Cup --Cup-mouth super anti-collision

One-piece seamless goblet is more durable and firm!

Many imitative goblets in the market are not one-piece forming which are not as firm as our products!

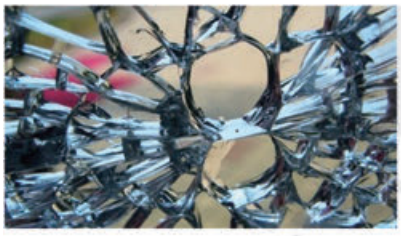


Goblet with seam is easily broken

Use Safety

When the glass is broken, it comes to large pieces without small pieces.

Strengthening cup is safer than tempered cup



When strengthening cup is damaged, it comes to large pieces

Tempered Glass cup gathered huge energy in the production process, from which it has a very strong resistance to mechanical shock. Once broken, the cup released enormous energy, too;

When common tempered glass cup is broken, it comes to explosive splashing

Strengthened glass cup is strengthened at its vulnerable parts, not only enhances the durability of the glass, but also greatly reduces the risk to the restaurant customers when broken

Look as New

Unique product formulation makes the glass has a strong inoxidizability. Glassware color retention period is 2-3 times of similar domestic products. After washed 500 times, it is still clean as new.

Wash fastness is 2.5 times of domestic product, after repeatedly use, it still looks as new

Soda-lime-silica glass, the unique ingredient formula makes the glass even more durable and solid; it still shines as new after many uses. The added calcium and magnesium oxides makes the glass less affected by water and cleaning agents erosion; the added aluminum oxide makes the glass stronger to resist temperature and humidity changes; the added cerium oxide can effectively improve the overall quality and color of the glass.

Washing test

After 200 times washing in dishwasher – seriously wear

After 500 time washing in dishwasher – look as new

Cost-effective

Cost is one-third of similar domestic products, firm and durable.

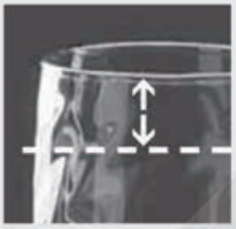
Machine pressed cup-mouth strengthening technology

Unique machine pressed strengthening technology is having particular heat treatment after molding the cup in order to extend the product life. Machine pressed strengthening technology is commonly used in China for strengthen cup.

Fine rim technology

Fine rim technology allows a wide variety of blown cup and one-piece cup with least raised rim in order to increase the aesthetic sense of permeability of the product.

Machine blown cup-mouth strengthening technology



Machine blown cup-mouth strengthening technology is having heat treatment and rapid cooling process after molding the cup. This secondary treatment is for the most vulnerable upper half part of the cup in order to increase the temperature resistant performance and firmness of the product.

Cup-mouth cold cutting strengthening technology

Cup-mouth cold cutting technology is to strengthen the cup-mouth after the cold cutting process. This process makes the cup-mouth firm, durable and crack resistant, while maintaining a smooth, elegant and best visual effect without raised rim.

Dimensions Guide

Goblet

The commonly used types in the restaurant or bar

Red wine glass

Features: the glass has a large cup belly and slim cup foot, bowl-shaped curved bottom allows red wine a better contact with the air.
Suitable for: red wine

White wine glass

Features: the glass with olive-shaped cup bottom and slim cup foot, narrow and long cup shape keeps wine warm.

Multifunctional glass

Suitable for: containing all kinds of juices, hot and cold drinks, soda, dessert, ice cream and so on.

Flute-shaped champagne glass

Features: the elongated cup body makes the wine bubbles have sufficient space to play, suitable for drinking champagne and all kinds of sparkling wine.
Suitable for: champagne and different kinds of sparkling wine.

Dish-shaped champagne glass

Features: containing sparkling wine like champagne and fruit, cocktails, pre-meal / after meal dessert, ice cream and so on.
Suitable for: this is the traditional champagne glass which is widely used in weddings and other occasions.

Sweet wine glass

Suitable for: different kinds of fruit, plant and sugar mixing alcohol with high concentration alcohol.

Brandy glass

Features: narrow cup-mouth, wide body and holder's hand make wine have sufficient space to play.
Suitable for: Brandy

Special drinking glass

The commonly used types in the restaurant or bar

Martini glass

Suitable for: all types of alcoholic cocktail without ice, like Martini.

Margarita glass

Suitable for: margarita and cocktails and other specialty drinks, ice cream and so on.

Hurricane glass

Suitable for: various types of special-flavored drinks containing or not containing alcohol, mixing wine and all kinds of iced cold drinks, dessert.

Large Poco glass

Suitable for: all kinds of mixed drinks, fruit juice, lemon juice and beverages without alcohol, ice cream and so on.

Whiskey glass

Suitable for: all kinds of mixed drinks, fruit juice, lemon juice and beverages without alcohol, ice cream and so on.

Electric Water Boiler

- Multi point detection of water level, avoiding repeatedly boiled water
- Smart error display
- Water shortage and power cut-off protection
- Food grade 304 stainless steel for whole machine
- High class electronic components, moisture proof, and high-temperature resistance

Induction Cooker

- Germany imported IGBT and samsung control chip, specially designed security lock protection;European style sensing IS4 touch control panel;
- Heating is rapid and uniform, and can kill heat quickly.
- High quality imported stainless steel shell, imported advanced black crystal surface plate;500w-2000w multi-stage fire and high temperature regulation, 160-260v ultra-wide voltage design;
- Safe, environmental protection, high speed, long service life
- Power: 500 ~2000 W
- Voltage: 220V/ 50 Hz

Electric Plate Warmer Cart

- Double walled construction reduces heat loss
- Stainless steel heating element
- Cool to-touch bakelite handle
- Adjustable spring tension for loading different quantity
- Four swivel castors with brake optional black cover
- All stainless steel structure
- Thermostat controlled, durable and robust
- On/off power switch
- Temperature range 30～85°C
- Adjustable plate guiding rail to suite different size plate

Single Column
Code: 0300101817
